

COUNCIL PROVIDES SALVATION ARMY \$1200 FOR ANNUAL BONSPIEL CITY

Many Aldermen Are Opposed to the Voting of This Money to the Curriers.

MAYOR OPPOSED THE PROPOSITION STRONGLY
Majority Are in Favor and Carry the Motion in Spite of the Protests.

The council passed a motion granting the sum of \$1200 to the annual bonspiel of the Edmonton curriers. The motion of this event were able to get by J. W. Maughan who stated that the city would be benefited to a large extent by having the curriers from all the western provinces meet in this city for two weeks beginning February 10th.

Alderman Driscoll stated that there is no better scheme of advertising the city and therefore highly approved of the grant. He made a motion to this effect. Alderman May will in accord with the grant and having voted it last year, yet he almost carried the matter to the finance committee for a report, this having been done with all other requests for grants.

Matter Is Urgent
Mr. Maughan then stated that the matter is urgent and that they really should know what the council is prepared to do tonight. He suggested that a smaller amount should be voted acceptable now in preference to delay. He explained that owing to the low rates from Winnipeg and other cities there would be a large number of visitors in the city and much money would be spent by the curriers.

Alderman Sheppard said he was in favor of advertising the city, but he wanted to see it done as cheaply as possible. He did not think that the curriers needed any help, but insisted that they should pay for their fare as he has always had to pay for his.

Mayor Is Opposed
The mayor took a hand in the discussion and said that in the past the council has been so easy that even everybody has been getting grants. He referred to the fact that he has been dumping the sales off his boots in an effort to raise \$2000 and has not yet been successful. "Let the devil bury their dead," let the curriers have their fun and pay for it, he concluded.

Amendment Is Lost
The amendment to refer to the finance committee was carried, and the motion to grant the \$1200 was carried. The vote for the amendment Alderman May, Kinney, Sheppard and the mayor, for the motion Alderman Cadell, Douglas, Driscoll, Clarke, Campbell and Smith.

When the amendment was voted down, Alderman Clarke wanted to make a motion to leave the grant to \$1200 but on the advice of the speaker, the mayor ruled this motion out a fowler and the original motion was carried. It was suggested that the curriers will hand back \$200 of the grant to the council.

SINKING FUNDS MAY BE LOANED OUT TO KENNETH A. McLEOD

One of the items on the agenda had over until this morning by the members of the council at last night's session was the recommendation of the sinking fund board that the sum of \$150,000 be loaned to Kenneth A. McLeod for a ten year term at the rate of seven per cent.

The recommendation of the board is contained in the following letter to council:

"Your sinking fund board having met and discussed with the finance committee of the council the question of a loan to Mr. Kenneth A. McLeod, beg to recommend as follows:

"That a loan of \$150,000 be granted to the above Mr. McLeod on the following terms: That a first mortgage be given to the city on the most easterly 22 feet of lot 36 and the most northerly 118 feet of lots 31 and 32, river lot 6, in the city of Edmonton, together with the building and property to be erected thereon. Also a first mortgage on other freehold property within the city to the value of \$200,000. This loan to run for 10 years and bear interest at the rate of 7 per cent per annum, payable by quarterly payments to be made at the rate of \$1000 a year to begin after the expiration of the third year, and yearly thereafter. The mortgagor to pay interest on the monies as soon as available, or as soon as paid over, which never occurs first."

We feel that we would like to say to you and the city commissioners of this important city that we are willing to place ourselves at your service in connection with the sinking fund. We find them employment at such industries as sorting and balancing the water supply and the repairing old boats and shoes, old furniture, renovating and cleaning and painting the boats and shoes, and we take many a rule cases from the Federal Penitentiary at Kingston, Mount Pleasant, New Westminster and others.

We last week, opened a new industrial institution for men at Vancouver similar to the one we have in Toronto and Montreal. In these institutions we deal with the cases of men who are over to us by the magistrates, also ex-prisoners from the different prisons.

"Our system is, providing them with good clean beds and healthful surroundings. We find them employment at such industries as sorting and balancing the water supply and the repairing old boats and shoes, old furniture, renovating and cleaning and painting the boats and shoes, and we take many a rule cases from the Federal Penitentiary at Kingston, Mount Pleasant, New Westminster and others.

"The mayor and commissioners of Vancouver have for some time given their own expense of the Roman Catholic church in that city and furnished it with beds and kitchens and handed the same over to the Salvation Army officers to work their social effort for them this winter. It is proving to be an excellent success and certainly very great relief to the city authorities."

Some Difficulties Cited
"Your commissioners will realize that the Army's value comes in when the prison officials turn the man out. The difficulty in many cases is the fact that when the man is discharged he has no friends, he has no work and he is inevitably getting into bad company and difficulty and returning again and again to the goal."

"The work that we should do would also embrace a considerable amount of relief work that we could undertake for the city at any time before we are able to do anything special in the way of social effort for the benefit of the out of town men and families."

"The mayor and commissioners of the city of Victoria have just handed over to us a large stone pile for the Army officers to work on their behalf and thus render relief to the out of town men."

"I desire to thank your worship for your very kindly reception of our patients listening to my statement and for your promise of your kind sympathy and interest in our work, and the city decides to help us to start our work we only say that we will do our very best to show you that we will be encouraging and satisfactory."

A Word To The Wise Is Sufficient

And these special prices in boys' coats and suits should tempt all parents to participate in them. We offer here just plain facts, and they themselves should be sufficiently inducive to the economically inclined. There are just two days more of this sale, so buy now while selections are best. Prices are right, too; in fact, they have never before been so low.

Youths' Long Pant Suits at Half Price

For just two days more all our young men's smart tailored long pants suits at Half Price. They come in dressy all wool tweeds and worsteds. Cut on the men's models and very smartly styles. The Hudsonia The Finest Lunchroom in the City

It is marvellous how quick we have won a good name for our Hudsonia and Cafeteria. Our patrons have come to look upon their daily meal as a real pleasure and something to be looked forward to. Everybody's taste is catered to. Our 50c luncheon is unsurpassed in the city, while there is extensive choice of tasty dishes in the Cafeteria. There is a bright, cheery, though business-like atmosphere all over, which means good results. Come early and avoid the rush. The orchestra music during meals. For the legends of those who have not paid us a visit, the terms of opening are as follows:

DINING ROOM—
Breakfast—\$2.00 to 10.30.
Luncheon—12 to 2.30.
Afternoon Tea—3 to 5.30.
Dinner (Saturday only)—6 to 8.

Six Only Genuine Water Colors

Regular \$7.50 to Sell \$2.75
It is not often that one receives such an opportunity as this of receiving a regular 25c water color at this price, and from the brushes of such well known artists as Kluhn, Crum, Uyle, but here is one of two to choose from. They are just six, all depicting quiet Dutch scenes, framed in gilt. The reason for the reduction is that the frames are slightly damaged, but as the pictures themselves, they are in the best of condition. Every one is worth its original value of \$7.50, but we desire to be rid of them. **\$2.75**

HERBERT E. BURDIGE, STORES COMMISSIONER

COUNCIL NOTES.

Petition From First Street

A petition from the residents of First Street asking for the extension of the street railway as promised over two years ago was referred to Commissioners. The petition was signed by 100 residents of First Street.

More Grants Asked

The Victoria Order of Nurses has asked the city for a grant of \$2,000. The Horticultural Society also have requested a grant of \$700. Both communications were referred to the safety and health committee of the council.

Wants Street Opened

The necessity for opening out Donald Street through the baseball grounds on Ross Street was urged on the council by Mr. Morrell. This will be done next fall and in the meantime the matter has been referred to the parks committee for a report.

King Edward Park

A largely signed petition from ratepayers living in King Edward Park subdivision was presented to the council last night by W. Connolly, who pointed out the need for water and sewer in this district. The petition was referred to the city commissioner on the motion of Alderman East.

HAYTIAN REVOLUTION IS SPREADING: ENTIRE POPULATION RISING

Cape Haytien, Hayti, Jan. 28.—The revolution in Hayti is spreading all over the north. At Port De Paix and elsewhere the entire population has risen.

SINKING OF EARTH ALARMS RESIDENTS

People Near Wingham, Ont., Suspect Presence of Underground River.
LAND OF BOGGY NATURE
Farmer Tells of Cattle Disappearing and Other Peculiar Incidents

Wingham, Ont., Jan. 28.—What promises to be one of the most sensational geographical discoveries ever known in this section of Canada has come to light through the sudden sinking of a large section of the roadway in Turnberry township between Wingham and Tecumseh, not far from the village of Belgrave.

It is the opinion of people who have resided in this district all their lives that the presence of an underground river is responsible for the mysterious occurrence, by which a section of the road one hundred feet long and many yards wide sank fifty feet. This theory is greatly enhanced by the fact that at a spot quite close to the village of Belgrave, an exactly similar sinkage has taken place, and where once was a level field, there is now a gaping hole in the earth's surface thirty-five feet in depth. At the bottom of which quick-sands bill and swirl and bubble, as though agitated by some unseen current underneath.

The two cave-ins, although several miles apart are in a line with each other in a northwesterly direction, and it is confidently believed that these two great holes mark the course of a subterranean river, which for years has been flowing beneath it and now under the firm peninsula and it now flows more below the surface, and quickly carrying on the work of destruction.

Geologists have long suspected the existence of such a river somewhere under the broad peninsula and it now looks as though another of Nature's secrets is about to be wrested from her and the existence of a subterranean river connecting Lakes Huron and Ontario firmly established.

Billiousness

Billiousness is a condition of the system which is caused by the accumulation of bile in the blood. It is characterized by a yellowish tint to the skin and eyes, and by a general feeling of ill health. It is often accompanied by constipation and indigestion.

Parmelee's Vegetable Pills

Parmelee's Vegetable Pills are a gentle and effective remedy for billiousness and other ailments of the digestive system. They are made from pure vegetable matter and are entirely free from any harmful or poisonous ingredients. They are sold in all drug stores and by mail order.

Dr. A. W. Chase's 25c Catarrh Powder

Dr. A. W. Chase's Catarrh Powder is a powerful and effective remedy for catarrh of the bladder and other urinary ailments. It is made from pure vegetable matter and is entirely free from any harmful or poisonous ingredients. It is sold in all drug stores and by mail order.

Married men, according to General Mills, are better fighters than bachelors.

SOUR, UPSET STOMACHS FIXED IN FIVE MINUTES—PAPER'S DIAPERSIN

Best for Indigestion, Gas, Heartburn and Dyspepsia—It's Great!
When your meals don't sit comfortably, or when you eat too much of a kind of food in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your pharmacist a fifty-cent case of Paper's Diapersin and take a dose just as soon as you can. There will be no more rising to bed with indigestion, gas or heartburn, fullness or sour feeling in the stomach, no more debilitating headaches, dizziness or in-

festinal griping. This all it does, and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors. Paper's Diapersin is a certain cure for out-of-order stomachs, because it takes away the cause of the trouble. It is just the same as if your stomach wasn't there.

These five minutes from all stomach misery is waiting for you at any drug store. These five-cent cases contain enough "Paper's Diapersin" to keep the entire family free from stomach distress, and induce good digestion for many months. It belongs in your home.

W. R. WILSON, MANAGER.

EDMONTON DAILY CAPITAL

OFFICE OF PUBLICATION—DAILY CAPITAL BLDG., 621-625 SECOND ST.

A CHALLENGE TO THE COUNCIL WHICH SHOULD BE ACCEPTED.

If no reason for the dismissal of Chief of Police Carpenter had heretofore existed, an unanswerable one was furnished by the incidents of the council meeting of yesterday evening.

When a civic official, holding a position such as that of the chief of police, allows himself to be led into challenging those who have been elected to conduct the city's affairs, when he operates, as he has done, with a section of the citizenry to throw this challenge into the teeth of the mayor and council, and when he places himself practically in the position that he defies the representatives of the electors to even investigate the failures of his department, then the time has certainly come when the mayor and the council must take up that challenge if they are to preserve their dignity and enforce the mandates upon which they received election.

When, added to this, the delegates of the moral reform league, evidently without knowledge of the true state of affairs in the police department, come to the city council to accuse that body of an intent to invite harlotry, corruption and lawlessness; when they attempt to place the mayor in the position of defendant of the very conditions which he is trying to dissipate, and when they say to the mayor that the man who has been at the head of the police force while the city has become a haven of refuge for the horde of undesirable must remain, whether the mayor wants him or no, then the moral reformers place themselves in the position of being not the ingenious seekers for a clean and moral town, but the instruments of a purpose to slander and malign the mayor and the council in behalf of a police officer whose evident incapacity is the exact and specific cause which has permitted these conditions to come about.

If proof had been lacking of the incapacity of the officer whom the delegates or the moral reform organization seek to have perpetuated upon the city, surely the proof was furnished in the list of undetected crimes read to them by Alderman Clarke, commencing with the Hargraves murder and ending in the burglary of the police station safe. When it becomes a matter of public knowledge that money is stolen while actually in charge of the police themselves, that to save their face officers of the department contributed to a restitution fund to make good the amount stolen and when it is openly declared that the chief himself not only knew of these circumstances, but that he contributed to the fund, then it is certainly time that the citizens of this city of Edmonton awoke to the nature of the conditions brought about under the regime of the chief of police whom the delegation went to the city council to declare should be kept in office willy nilly.

And all this while murderers and burglars, unapprehended, run amuck, while thievery and thuggery becomes the pastime of the influx of yeggs and while the mocking smile of the refugee from justice and the escapee from the city jails leers from every street corner.

Nor is this all. Shocking though it may be to the moral sensibilities of those who would compel the city council to depend upon Chief Carpenter to clean up the town, it may perchance be shown that in the very police station itself there have been instances of bestial immorality such as would have revolted and scandalized the community had the whole story been told. Nor would it be at all surprising if, in the finish, those who have made the case of the chief of police the occasion for their attack upon the city council will be set to wondering how they could ever have been led to believe that that official whom they came to extol, to eulogize and to defend could ever have been depended upon to so much as find his way home in the dark.

WATERED STOCK AND MASSACRES.

Half a dozen killed and a score injured yesterday when trainmen on the Michigan Central misinterpreted orders and met head on.

Michigan Central, according to the most authentic figures, carries water in the stock to the extent of \$50,000 a mile. Having to pay dividends upon this water, the road is unable to afford a double track. The fifty thousand would have bought the double track, and would thereby have averted yesterday's and many other massacres; but the fifty thousand did not go into the road. The Vanderbilts and their accomplices got it, and still have it; except what they have spent upon dukes and divorces.

LYNCHING WITH MODERN APPLIANCES

In that enlightened community of Muskogee, Okla., a lynching party was made up the other night with a black man the per usual victim. To give the barbarous function a touch of the modern, the lynchers went to the scene in automobiles.

Lynching, as a general rule, is associated in one's mind with lariates, whooping cowboys and plenty of red liquor. The Muskogee incident makes evident at least one point, which is that all the lynchings are not undertaken by what is generally described as the rough element. The reversion to type is quite as likely, evidently, to touch the man in the auto as the cavalier who coursed over the plains on the hurricane deck of a pie-bald broncho.

DYNAMITERS PENALIZED WHILE HATCHETMEN GO FREE.

With due and orthodox process of law, the grand jury of Houghton, Mich., gravely refuses to identify any of the men who shot, beat and deported Moyer, and decides that nobody can be punished.

Just to keep the balance even, some properly constituted legal authority should open the doors at Lavenworth and let the McNamara boys out.

It seems so unreasonable to penalize the dynamiters while the hatchetmen go free.

UGH! NO CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "fruit laxative" cleanses stomach, liver and bowels.

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, salivaceous taste "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels.

A tablespoonful tonight means all California poison, waste matter, fermenting food and sour bile gently moved out of your system by morning.

Without griping. Please don't think of "California Syrup of Figs" as a physic. Don't think you are dragging yourself or your child through this delicious fruit laxative can not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Young people find it is in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs." They see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out.

TODAY'S BIRTHDAY PARTY

George E. Amyot, of Quebec, who celebrated his birthday today, has made a fortune out of corsets, paper boxes and all of which commodities he has been manufacturing in large quantities for several years. He has made his fortune in various ways. One of the ways he has made his fortune is by his invention of a very fine statuette, the historian Garneau, which now stands near the St. Louis Gate in Quebec and is one of the numerous objects of interest in the Ancient Capital. Mr. Amyot ran for Parliament once but was beaten by a youth of 22, Andy O'Brien. He has been a vice-president of the Canadian Manufacturers' Association.

Adam Not First Man, Says Rev. Torrey, 58 today.

Hoboken, New Jersey, was the birthplace of the late Rev. Arthur Torrey, one of the most forceful and eloquent of the world's evangelists. During his career as a preacher of the gospel in Scotland, Ireland, Germany, France, Australia, New Zealand, China, Japan and India. A disciple of the great Dwight L. Moody, he brought to his work all the religious fervor of that great evangelist, and in addition, the intellectual training received at Yale and the universities of Germany. He was ordained to the Congregational ministry in 1875, and for several years was superintendent of city missions in Minneapolis, and afterward superintendent of the North American Bible Institute. He is the author of many books on religious subjects, and in one of the latest volumes from his pen, "The Bible as a Theory in regard to a Pre-Adamite Race."

Dr. Torrey's theory is that Adam and Eve were created after a previous race of men had proved to be a failure, and had been wiped off the face of the earth because of their sinfulness. These pioneer humans were, so to speak, a total loss without insurance. After the catastrophe, which ended the pre-Adamites, Dr. Torrey says, God recreated the earth in six days, as set forth in Genesis, made Adam and Eve to start the human race anew.

"It is plain," says the evangelist, "that we have the description, not of the creation of the earth, but of a judgment that came upon the earth after its creation, presumably because of the sin of some pre-Adamite inhabitants. What follows, then, is not the steps of the original creation, but of the rehabilitation of the earth to become the abode of man."

John Sebastian, who resigned this month as third vice-president of the Rock Island lines, has had a long and distinguished career as a railroad man. Born in Newport, Ky., nine years ago today, he commenced his climb to the top as a clerk in an office of the Atlantic system. His connection with the Rock Island, recently severed, began thirty-four years ago, when he was made general southwestern passenger agent. In 1902 he was made passenger traffic manager of the entire system, and later third vice-president.

The Rev. Sabine Baring-Gould, clergyman, author and poet, whose name appears on the title pages of nearly a hundred books and of some of the most popular hymns in the English language, was born eighty years ago today. His first book, "The Path of the Just," issued from the press twenty-two years ago, when the writer was a lad of twenty. Some time ago, when a namesake died in South Africa, the Rev. Baring-Gould enjoyed the novel experience of reading his own obituary notices.

Lord Camosa, who married Miss Mildred Sherman, of New York, in 1911, will pass his thirty-third birthday today. The barony of Camosa dates from the thirteenth century, and is one of the oldest of the young nobles of the ancient world. The young nobleman gave birth to a son and heir last July. The young couple met at the Deedes-Gould wedding.

Hydroplanes Carry Passengers.

Navigators of the air and water combined in a commercial sense, according to C. F. Taylor, of Los Angeles, who has been in the Atlantic coast states recently and is now visiting his parents at Westport. He stated last night that when between Tampa and St. Petersburg, Florida, a company runs four hydroplanes regularly, carrying passengers, a distance of 32 miles.

TODAY IN DOMINION HISTORY.

James De Mille, the Canadian novelist, whose "Dodge Club" gave him an international reputation, died in Halifax thirty-four years ago today. He was born in St. John's, New Brunswick, in 1872, and was educated at Brown College. From 1890 to 1895 he was professor of Greek and Latin at Acadia University. He was a member of the connection continued to his death on January 28, 1938. He was shortly after he joined the faculty of Dalhousie University, where he published his "Dodge Club," a delightful satire on the experiences of American tourists in Italy and France. All of his novels were interesting in degree, and marked by an excellent literary style, but his "Dodge Club" is his masterpiece. The "Dodge Club" is a satire on the experiences of American tourists in Italy and France. Others of De Mille's novels which still enjoy popularity include "The Arkansaw Ranger," "A Comedy of Terrors," "The House of the Seven Gables," "The School," "Lost in the Fog," "The Lady of the Lake," "The Cryptogram," and "The Living Link." It is greatly to be regretted that De Mille's fancy wandered so far afield that he wrote so little that was distinctively Canadian.

January 28 is the birthday of James Craig Watson, famous astronomer, at Fingert, Ont., 1829; of Alexander Mackenzie, the first Canadian Minister, in Scotland, 1822; and of Samuel A. Cook, American congressman, in New York, 1825. In 1849, Sir Francis Bland Hood, who died in London, England, on this date, in 1864, was elected governor of Nova Scotia from 1847 to 1854, and governor general of Canada from 1864 to 1867. His administration being marked by the visit of the Prince of Wales in 1869, and by several other important events.

FIRST THINGS

Gas Street Lights. The first street to be lighted by gas was Pall Mall, in London, where the system was first used in 1817. A few years later the same system was used in New York City. The first gas street light was used in London in 1817. The first attempt to introduce the use of gas in America was made in Baltimore, in 1816. The project was unsuccessful. In 1822 it was introduced into Boston, and in the following year the New York Gas Light company was incorporated, but it did not enter into successful operation until 1827. Philadelphia was the first other city to adopt gas lights at about the same time. Within thirty years there were gas lights in the United States and six in Canada lighted by gas. Boston and New York were the first to use gas for street lighting. Until half a century ago the price per thousand cubic feet ranged up to \$7, the average being about \$2.50.

TODAY WE CELEBRATE

Cuban Commemorate Marti, "The Apostle of Freedom."

The Queen of the Antilles will do the finest gown in her wardrobe today in honor of Jose Marti, the Cuban "Apostle of Freedom," who gave up his life in the cause of Cuba Libre. Marti Day now has a double significance, for it was on this date in 1905, that the American provisional government came to an end, and the new Cuban government was installed. While the first Cuban republic, organized under the presidency of Tomas Estrada Palma soon after the Spaniards had been driven from the island by Uncle Sam, was an ignominious failure, the second attempt at self-government seems to have been crowned with a large measure of success. The real test came when a presidential election was held to choose a successor to Jose Miguel Gomez, and the fact that the party in power was defeated, and General Mario Menocal, a Canadian-born, chosen president, afforded sufficient proof of the fairness and honesty of the battle of ballots.

Another indication that the Cuban republic has come to stay, and that the people of the island have attained capacity for self-government, is to be found in the fact that the feature reporting event of today's celebration

will be a baseball game, rather than a bull fight or a cocking main. The brutal pastimes which were popular during the Spanish regime are now of the past, and the plazas de toros and the cock-pit have been replaced by the baseball diamond, the golf links and the boxing ring.

Cuba is perhaps the most fertile of all tropical lands, with the encouragement of a liberal and stable government, its vast natural resources are now being developed as never before. It is expected that Marti Day will be celebrated next year by the inauguration of a great national exposition at Santiago de Cuba, commemorating the opening of the Panama Canal, from which Cuba expects to derive great and lasting benefits.

Hudson Centenary.

One of America's foremost Shakespearean scholars, Henry Norman Hudson, was born a century ago today on Fort Mower, Cornwall, N.Y. In his youth he was a farm hand and a coach maker, and later, after graduating from Middlebury College, a school teacher in Kentucky and Alabama. From his boyhood he was an ardent student of the works of the great dramatist, and in 1856, after years of labor, he published an edition of Shakespeare's works, with notes. He was a chaplain during the civil war. He wrote "Shakespeare: His Life, Art and Character," and several other books. He died at Cambridge, Mass., in 1886.

Jersey City's Birthday.

Jersey City was born 94 years ago today as the "City of Jersey." When the entire population of the Hudson valley in possession of Manhattan the land across the Hudson was used for farming purposes. In 1820 the entire population of the city was 10,000. The city of Jersey City was now a city of nearly 200,000 consisted of 13 persons, occupying one house and 10 buildings. Two years later, in 1822, the "City of Jersey" was reincorporated as Jersey City. Its growth was at first very slow, and in 1850 the population was only 11,447.

Thought She Would Go Mad WITH HEADACHE.

In all cases of headache the remedy should be directed to remove the cause, for with the cause removed the headache vanishes for all time. Headache poisons just relieve for the time being, but what is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all descriptions than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Augusta Bowman, Hamilton, Ont., writes:—"I have suffered terribly with my head for weeks at a time till I thought I would go mad. A friend advised me to give Burdock Blood Bitters a trial, so I got a bottle and found it. I have used four bottles in all and I am glad to say that I have had no more headaches since. I would advise all sufferers to give it a fair trial."

Bathing

Spending your winter at the world famous HOTEL DEL MONTE DEL MONTE, CALIFORNIA.

STATES ESTRANGED FROM PRACTICALLY ALL GREAT POWERS

Now in Position Rivaling England's "Splendid Isolation" Three Years Ago.

INVOLVED IN WAR WOULD BE CENTER OF HOSTILITY

Critical Moment of Mexican Trouble at Time All Unsympathetic.

Washington, Jan. 28.—The international situation sketched by President Wilson Monday for members of the foreign relations committee was pieced together yesterday. Each new stroke has added to the somberness of the picture. A summary of what the president told the committee shows the United States at one of the most critical moments of the Mexican trouble and estranged from practically every important power in both hemispheres. Definite differences with Japan, Great Britain, Russia and Colombia have deepened into actual hostility towards the United States on the part of the peoples of at least two of these countries and the sympathy of the nations with them has left the United States in a position rivaling the "splendid isolation" of England in the years preceding the triple entente.

Dispute With Britain

The act of congress granting preferential treatment to American coastwise shipping through the Panama Canal precipitated the first serious difference of more than a decade between the United States and Great Britain. Later the American refusal to arbitrate the dispute brought about the United States the charge of serious breach of faith, while the common interests of France, Germany, Spain, Italy and all European countries to some extent have aligned themselves with England. With the assailing motives of resentment, Germany has gone so far as to join with the British government in declining to take part in the Panama Exhibition in 1915, with unabated bitterness through three years.

The Japanese controversy has lasted administrations. Within the week the popular resentment in Japan has reached a point where, in order to prevent parliamentary reverses for the government, Baron Makino, director of foreign affairs, has felt obliged to make public declarations on the California question that involved a sharp criticism of the United States. The battleship Idzumi, damaged by a detached to the Mexican coast, a five day festival in honor of the Japanese naval victory has been proclaimed. The Japanese government has been proclaimed. The Japanese government has been proclaimed.

Situation Not Adjusted

At the same time Colombia's grievance over what Colombians regard as the spoliation of the Province of Panama by President Roosevelt has not been adjusted. The Colombian matter would perhaps be unimportant, in itself, but every Latin-American country feels that the cause of Colombia is the cause of Latin-America. The feeling to the south undoubtedly is that in that case the United States took what she thought she required, and until Colombia's claims for redress have been satisfied the fear will remain that whenever further aggressions are necessary to some American policy that aggression will be made at the expense of the Latin Republics.

What impressed some of the senators who were at the White House last night was the fact that the various diplomatic controversies into which the United States has become involved would all gravitate to a common center of hostility should any one of the differences become acute. Senators find it difficult to under any circumstances, reasonably to be expected Japan would go to war with the United States. But they realize that if the Japanese proposals ever to strike for the domination of the Pacific her first blow would fall when the United States is most deeply involved in Mexican troubles. And such a blow, they fear, would find the United States under the cold, unsympathetic scrutiny of the civilized world.

PELLETIER MAKING FINAL ARRANGEMENT FOR PARCEL POST

Ottawa, Jan. 28.—Pelletier, postmaster-general, this morning made final arrangements for the parcel post that goes into effect on February 10. The postmaster-general carefully reviewed the phase of the parcel post question, the postmaster-general has decided the postal system in fixing parcel rates on account of the great revenue over which distribution has to be maintained in Canada as the comparative sparse population of the dominion.

BOREAL MAJORITY OVERLAPPEMENT AS FORTY-FOUR

Member for Humboldt Brings in Another Motion Regarding Free Wheat.

LIVELY DISCUSSION ON CLOSING SPEECH DEBATE

Foster Alleges Agreement Was Made With Whips to Close Yesterday.

Ottawa, Jan. 27.—The first division of the session occurred at midnight. On a vote of 198 to 154 a Government majority of 44. Sir Wilfrid Laurier's amendment to the address was defeated. The amendment was "We regret to represent to your royal highness that in the gracious speech with which you have honored this house it is admitted that business in a depressed condition, yet there is no indication on the part of your advisors of the determination to take any steps towards relieving such a situation."

No striking incident marked the division which was taken in a comparatively full house and with a small attendance in the galleries. The absentees included Premier Borden and Hon. Mr. White both of whom were confined to their homes with illness. The premier was paired with Mr. Pardee chief liberal whip and the minister of finance with Hon. Mr. Emmerson.

When the main motion was put, Dr. Noe of Humboldt rose. He said it was his desire to move an amendment which would cause some discussion and asked to be permitted to move the adjournment of the house. Hon. George E. Foster said that he understood that an agreement had been arrived between the whips to close the debate on the address before the house rose. Sir Wilfrid Laurier said he was surprised to hear such a statement. He had not heard of the arrangement if there was one. He said that he had been an agreement to vote on the amendment under discussion but not to close the debate.

Mr. Stanfield, chief conservative whip, said it was possible there had been a point where, in order to prevent parliamentary reverses for the government, Baron Makino, director of foreign affairs, has felt obliged to make public declarations on the California question that involved a sharp criticism of the United States.

The battleship Idzumi, damaged by a detached to the Mexican coast, a five day festival in honor of the Japanese naval victory has been proclaimed. The Japanese government has been proclaimed. The Japanese government has been proclaimed.

Efforts Made to Interest Other Cities

A combination of all civic activities in one large central department through a committee, to especially include the Edmonton board of trade, the Citizens Press bureau, the city inspection department and such other departments as may be deemed advisable.

(Continued.)

(a) Each department to have its own staff of all matters pertaining to the governing body.

(b) The name of such organization to be decided at a general conference of the unioning bodies.

(c) The work now being carried on by the unioning bodies to be continued and closely defined by the governing body, to avoid duplication of effort or expense.

(d) A union of all other civic activities to be formed under a name that will differentiate it from the board of trade.

Quickmeal Ranges Cost a Little More But Are Worth More Than The Difference

We admit that \$65.00, \$70.00 or \$85.00 are "big prices," but—have you ever seen the "Quickmeal Range?" If you'll only look them over you will want no other range. Just think what it means to have a range that never requires polishing. You just wipe it off with a cloth. Enamel lined oven, enamel lined flues, polished top and the \$85.00 range also has a blue enamel covered body and the enamel is guaranteed not to crack or come off. We have other ranges at other prices—in fact we have a half dozen other kinds—all good values, but we'd like you to see the "Quickmeal" before you buy. It's the aristocrat among ranges.

LABOR LEADERS DEPORTED FROM SOUTH AFRICA

President and Secretary of Labor Federation Among Ten Sent to England.

(One Town, South Africa, Jan. 28.—The government has decided to deport ten of the principal labor leaders, including President Watson and General Secretary Bain of the Trades Federation.

Under a strong escort the men were taken today from Transvaal to Natal and late last night were put aboard a steamer which will sail before dawn, stopping at no point until it reaches England.

This action was taken by virtue of martial law, which is still in force in Natal, from which province the deportation can legally take place. Measures will be taken to prevent the men's return to South Africa.

The drastic action of the British government in deporting the labor leaders from South Africa has caused a sensation in British labor circles. The measure was carried out with a certain lack of ceremony and few details are known either at Pretoria or Johannesburg. The name of the steamer on which the men were embarked has not been divulged.

Each with labor leaders attending the Glasgow conference.

The unionist press express absolute approval of Premier Botha's action. Standard praising the South African government's "admirable energy," the Express congratulating the government "on making easier the restoration of peace and sanity in South Africa," and the Graphic regretting that "such a short way with strikers is not possible in this country, because both political parties are terrified by the labor vote in the towns." The Express heads its editorial "Must We Have Them?"

The Standard remarks that "reasonable people are not likely to raise any objection to the removal of the South African labor leaders unless on the score that they are not wanted in this country."

"Two liberal journals question the legality and wisdom of Botha's action. The Daily News finds difficulty in expressing a moderate opinion of the inexpediency of the course taken, which, in its view, is a declaration of war on all labor organizations." The Daily Chronicle says:—

"Afraid of the End

"The slopes are slippery which lead from such beginnings, to endings seen in Venezuela and Mexico. The unique conditions in South Africa cannot make unwise wisdom."

"The drastic action of the British government in deporting the labor leaders from South Africa has caused a sensation in British labor circles. The measure was carried out with a certain lack of ceremony and few details are known either at Pretoria or Johannesburg. The name of the steamer on which the men were embarked has not been divulged.

to wait for further developments before giving their opinions.

The Daily Chronicle describes the deportation without trial as a "striking example in the history of the British empire, and declares that the whole action of the Botha government since it proclaimed martial law could only be justified on the ground that the strike was not an ordinary industrial conflict, but an attempted revolution.

Reated speeches were delivered in which denunciations were expressed of the "Violation of the most elementary rights of British citizenship by General Botha, the premier of South Africa."

James Lumsden Macdonald, a socialist and labor member of parliament, described the South African government's action as "A very critical conclusion to the South African war."

PANAMA TOLLS QUESTION IS BONE OF CONTENTION

Washington, Jan. 28.—How to dispose of the Panama canal tolls takes the shape of the subject of discussion among the captives today, when the attitude of President Wilson on the subject was just returned from his trip to Minneapolis and other points in the states. He reports that conditions seem to be improving considerably all over the country.

Consular Agent Returns.

Admission coast, was vessels, in violation of the Hay-Pauncefote treaty, that proclaims that the canal shall be free and open to the vessels of commerce and of war of all nations "on terms of entire equality," and that "charges of traffic should be just and equitable."

Before any definite action is taken in congress it was said last night by administration leaders, a public statement from the president on the question will be awaited. President Wilson himself, after the night conference with the senators said he would preclude his view on the subject "at a future time."

Three courses are open to congress in the matter. Great Britain, which has persistently opposed the toll exemption for American ships, had offered to arbitrate the question as to its being in violation of the Hay-Pauncefote treaty. The majority in congress is believed to be opposed to this, maintaining that the United States should settle the issue for itself. Another course is to carry into effect a declaration of the Representative Adamson, chairman of the interstate and foreign commerce committee, which would suspend for two years the operation of the provision exempting American ships from payment of tolls, should this be adopted diplomatic negotiations could continue. The third proposal is that congress repeal the free toll provision recognizing that it is in violation of the Hay-Pauncefote treaty. Some of the senators who voted for the repeal.

When he left Edmonton last Wednesday morning there was about two inches of snow on the ground, more than had been at any other time this winter.

The taxation of land values is the most medium of raising taxes is now being even more successful in Alberta than the most sanguine hopes expected. "We have been already proven that the taxation of land values, saves expense and, on the whole, is a better method than the present one. Since the last assessment in force two years ago we have noticed that in Edmonton, one of the cities in Alberta, where all the taxes are raised by taxing the land only, recent lots have been built upon at a greater extent than they were before."

SIFTON TALKS IN EAST ON TAXATION

Says Medium of Raising Taxes in Edmonton Proving Very Successful.

Ottawa, Jan. 28.—Hon. A. L. Sifton, premier of Alberta, with Mrs. Sifton and family were in the city yesterday, a guest at the Chateau Laurier, en route to Europe where he and his family will spend a two months' vacation. "Though there has been very little snow in the west this winter, Mr. Sifton says the prospects are that agriculture has not been affected detrimentally in consequence. He says there has been sufficient moisture already to assure good growth of the spring wheat."

When he left Edmonton last Wednesday morning there was about two inches of snow on the ground, more than had been at any other time this winter.

Wool Blankets Reduced for Thursday's Selling

On Thursday you can get cosy warm wool blankets at reduced prices. We offer for this one day white, tan and red "Point Blankets" at the following savings. They are of well spun fine long wool, closely woven and have high soft napp.
